Congestion caused by our outdated infrastructure keeps us from doing our jobs, and it costs us \$160 billion annually. It's time for Congress to fix our roads and bridges and get America moving again.

Let's get back to work

Congestion isn't just annoying, it also drives up the cost of everything we make, buy or export - costing our country \$160 billion every year. It's time for Congress to invest in transportation infrastructure and keep our economy moving.

Congestion is holding us back

There are tens of thousands of “hardhats for highways” ready to go. Let the U.S construction industry improve and modernize our roads, bridges and transit systems.

Let’s get the economy moving
